A moment's reflection ought to convince a sensible man of the folly and danger of constantly dosing with Cathartic Medicines. The practice is perniclous and sulcidal. An experience of forty years has taught me that the constantly increasing evils of indigestion are fearfully aggravated by the too free use of Cathartics. The American people are fast becoming a nation of dyspeptics by their artificial modes of life. Drastic Cathartics increase the initiality and prostrate the strength of the

American people are fast becoming a nation of dyspepties by their artificial modes of life. Drastic Cathartics increase the irritability, and prostrate the strength of the digestive organs.

The Pills now offered are especially designed to allay this irritability, and at the same time to invigorate and strengthen all the functions of digestion, while they are gently laxative. They are anodyne, tonic and laxative. They are so mild and invigorating that one is not reminded by any disagreeable effects that he has taken medicine. Business Men, Students, Professional Man, Females, and all persons leading a confined or sedentary life, should try them.

The undersigned Physicians, cheerfully certify to the high professional standing of Dr. Colby of Stanstead, one of the oldest and best Physicians, and to the excellent qualities of his "Anti-Costive and Tonic Pills," which we have used in our practice, and highly approve.

Such a remedy has long been felt to be a desideratum in the medical world, both by the tho oughly skilled in medical science and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable.
